*** During the warranty period we swop the defect product. The defect product will either be repaired, or a refurbished product will be sent back to the customer for reuse. If it is not possible to do this a new product will be sent. As our products are designed in modulair way, they can easily be taken apart and repaired or refurbished. In this way we make sure that we maximize the lifespan of the product and postpone the moment it needs to be recycled. For more details on our warranty and swop policy, please read our general terms and conditions.**
